

IFRA 51st AMENDMENT CONFORMITY CERTIFICATE

Issue Date: November 14, 2024

Product: TEU-G-6482 SICILIAN MANDARIN

We certify that the above product complies with the requirements of the Code of Practice of the INTERNATIONAL FRAGRANCE ASSOCIATION (IFRA), up to and including the 51st Amendment to the IFRA Standards published June 30th, 2023 provided it is used in the following categories at a maximum concentration level of:

IFRA Category	Maximum Level of use (%) (w/w)	IFRA Category	Maximum Level of use (%) (w/w)
Category 1*	Not Applicable	Category 7A	26.49
Category 2	4.23	Category 7B	26.49
Category 3	13.24	Category 8	6.75
Category 4	57.14	Category 9	100.00
Category 5A	19.87	Category 10A	100.00
Category 5B	19.87	Category 10B	57.14
Category 5C	19.87	Category 11A	6.75
Category 5D	6.75	Category 11B	6.75
Category 6*	Not Applicable	Category 12	100.00

*The use of the fragrance materials contained in this fragrance compound has been determined to be Generally Recognized as Safe (GRAS) by the US FDA and/or FEMA Expert Panel; the Joint FAO/WHO Expert Committee on Food Additives (JECFA); and/or authoritative bodies such as the European Food Safety Authority (EFSA) or Japanese Food Safety Authority (FSC).

The IFRA (International Fragrance Association) standards have been developed as mandatory industry guidelines to provide safe use levels of fragrance ingredients based on rigorous scientific evaluation of independent scientific body RIFM (Research Institute for Fragrance Materials) and reviewed by the Expert Panel for Fragrance Safety. The QRA 2 (Quantitative Risk Assessment) maximum safe use concentrations have been developed from toxicological information available on fragrance ingredients and have taken into consideration the aggregate exposure from cosmetic, household and other fragranced consumer products.

For Takasago proprietary materials or supplier materials that do not have IFRA standards, either assessments have been conducted by an internal expert following the guidelines established by RIFM and the maximum use concentration has been established utilizing the QRA2 methodology or provided limits have been reviewed by internal experts prior to application of maximum use concentrations.

For finished product types other than those listed in the attached Annex, a new evaluation may be needed. In such cases, please contact Takasago.

It is ultimately the responsibility of the recipient of this certificate to ensure the safety of the final product containing this fragrance.

Note: This fragrance contains one or more materials that have been identified as having the potential to form nitrosamines in nitrosating systems.

The information provided in this certificate, to the best of our knowledge, is accurate at the time that it is provided.

Annex
Product Type and IFRA Category

Product Type	IFRA Category
Children's toys // Lip Products of all types (solid and liquid lipsticks, balms, clear or colored, etc.)	Category 1
Body sprays (including body mist) // Deodorant and antiperspirant products of all types including any product with intended or reasonably foreseeable use on the axillae or labelled as such (spray, stick, roll-on, under-arm, deo-cologne, etc.)	Category 2
